

Engendering Climate Justice in Aquaculture through Inclusive Nature-Based Solutions (IDRC)

Moderator: Dr. Rebecca McMillan, Program Officer, International Development Research Centre (IDRC)

Panelists:

- Dr. Kanokwan Manrom, Associate Professor, Ubon Ratchathani University, Thailand
- Dr. Hue Le, Researcher and Lecturer, Vietnam National University Central Institute for Natural Resources and Environmental Studies (VNU-CRES), Vietnam
- Ms. Norehan Saidi, PhD Student, Universiti Putra Malaysia
- Dr. Bleshe L. Querijero, Fisheries and Aquaculture Consultant and Gender Specialist, Philippines

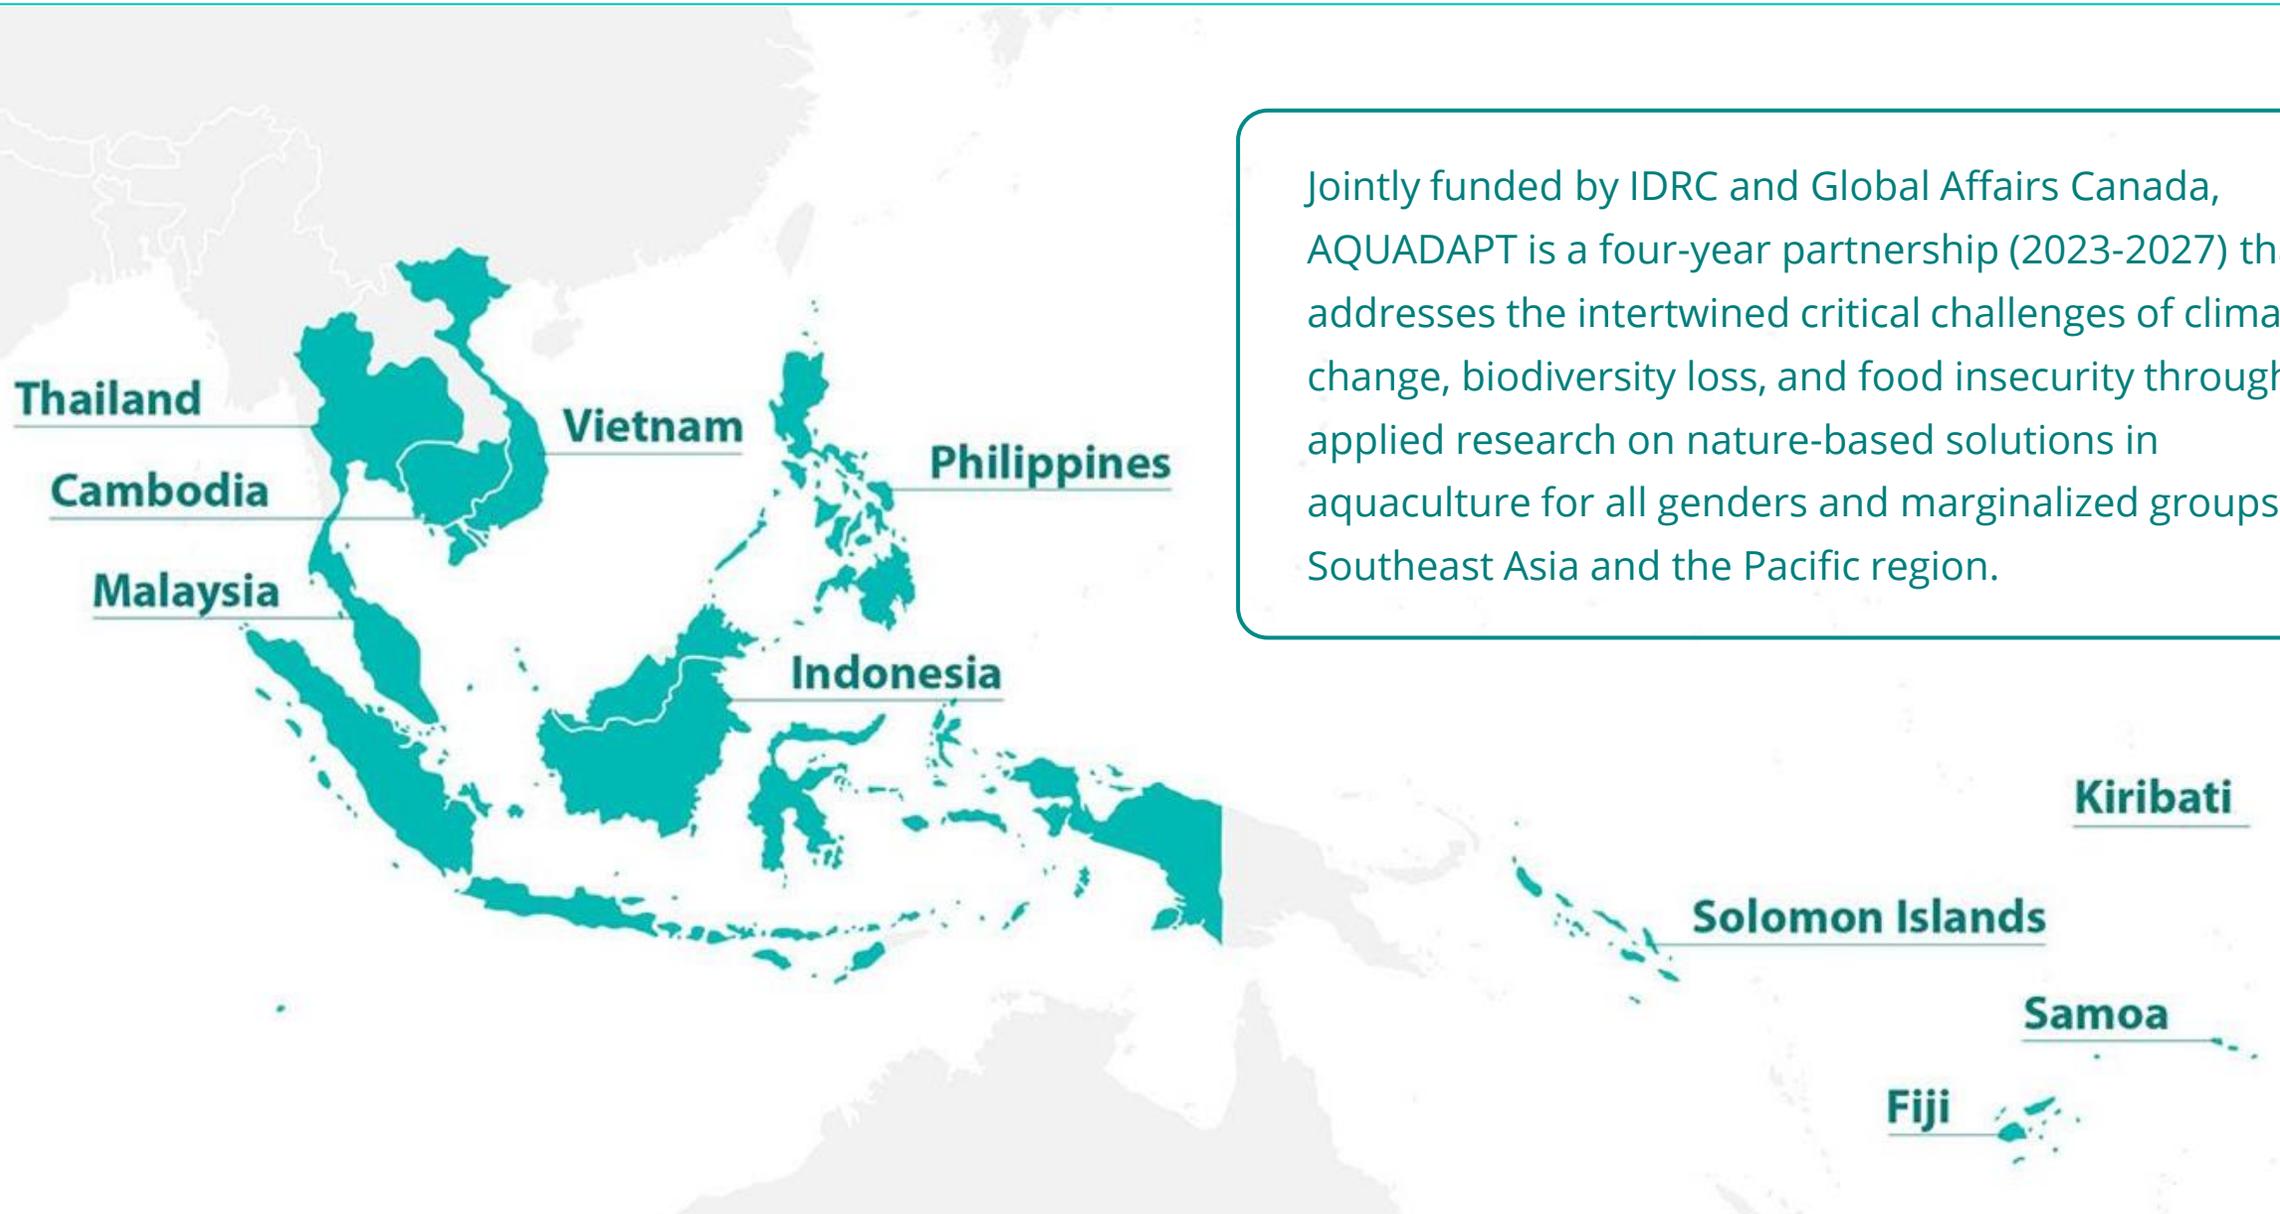

Discussant: Dr. Sizwile Khoza, Research Fellow, Stockholm Environment Institute Asia Centre, Thailand

GAF9 Conference
October 2, 2025

AQUADAPT: Nature-based Climate Solutions in Aquaculture Food Systems in Asia-Pacific

<https://idrc-crdi.ca/initiative/aquadapt>
Aquadapt@idrc.ca

Jointly funded by IDRC and Global Affairs Canada, AQUADAPT is a four-year partnership (2023-2027) that addresses the intertwined critical challenges of climate change, biodiversity loss, and food insecurity through applied research on nature-based solutions in aquaculture for all genders and marginalized groups in Southeast Asia and the Pacific region.
